

Horizon Utilities Corporation – Policies & Procedures

Subject: Environmental Policy	
Section: Corporate	Number: CORP-POL-0010
Issued: September 7, 2001	Revised: September 17, 2010

Application:

This policy is applicable to all Horizon Utilities Corporation’s (“Horizon Utilities”) permanent, contract and/or temporary employees, contractors and subcontractors (“workers”) working on behalf of the company, when conducting services for Horizon Utilities and its Affiliates.

Purpose:

To establish protocols, provisions and methods to conduct business in an environmentally responsible manner by Horizon Utilities’ permanent, contract and/or temporary employees, contractors and subcontractors working on behalf of the company and its Affiliates to:

- Ensure the health and safety of Horizon Utilities’ employees, contractors and subcontractors, and the general public
- Minimize the risk and/or damage to the natural environment
- Ensure compliance of all applicable environmental legislation, regulations and guidelines
- Promote sustainability through energy conservation and renewable energy technologies
- Communicate, train and make all employees accountable for environmental matters

Policy Statement:

Horizon Utilities and its employees, contractors and subcontractors are committed to delivering value to our customers by providing safe, reliable, and efficient electricity and innovative energy solutions. Our commitment is to conduct business in an environmentally responsible manner; Horizon recognizes that sustainable development is only possible if adequate provisions are made for protecting the environment.

Horizon Utilities promotes environmental awareness and social responsibility throughout its entire organization and will adhere to all applicable standards for the safe and environmentally sound conduct of all our operations.

Horizon Utilities will continually strive to align our business with the expectations of the communities we serve and of our employees, while abiding by all applicable environmental regulations, by:

- Advocating to our customers the efficient use of electricity in their homes and businesses
- Promoting sustainability through energy conservation and renewable energy technologies
- Taking reasonable care to prevent spills, fires and accidental discharges and continually improve procedures for responding quickly and appropriately if there is such an occurrence
- Nurturing and communicating our culture of continuous improvement in environmental management to all those working for and on behalf of Horizon Utilities
- Making environmental protection an integral part of our planning and operating decisions by informing, training and making all employees accountable for environmental protection
- Complying with all applicable environmental regulations including other environmental requirements subscribed to by Horizon Utilities
- Establishing and adhering to performance targets for environmental protection and sustainability
- Reducing the volume of waste generated and sent to landfill through economical recycling strategies
